

# RIDE WORLD WIDE COLOMBIA

RANCHO SAMAN - RISARALDA & QUINDIO 2025

## RIDE INFORMATION

These rides have been developed by Marc Noonan who first visited Colombia in 2014 on an 11 month riding expedition through Colombia, Peru & Ecuador. Marc fell in love with the beauty of the country and the warmth and hospitality of the Colombian people and has made his home at Rancho Saman. Having spent some time guiding rides in the UK, Marc's experiences, enthusiasm and love of horses add that extra detail to make each ride special. Routes explore the coffee plantations and dense jungle of Risaralda & Quindio provinces, following narrow tracks through forest with steep climbs to hidden waterfalls; there will be chances to canter through banana plantations, and along high ridges. The area is rich in every form of life - birds, butterflies, fruits of every shape & colour, verdant forests and of course people. This ride is all about local colour and culture, you may along cobbled streets for a drink or ice cream in the town square, watch farm workers harvesting coffee and bananas, and sample the local rum in local posadas. The result is a wonderfully exciting Colombian adventure!

## DATES

6 and 8 night itineraries are run from set dates listed further below. Shorter 3 day rides are also possible (please enquire for dates & rates). Rides are usually limited to a maximum of 6 participants. Stays at Rancho Saman are also possible on request and rides can be arranged year round. Please contact us to discuss dates, your plans and availability.

## HORSES

The horses used are mostly the local Colombian criollo, Appaloosa & Appaloosa crosses, Paso Fino and Percheron crosses, bred for farm work and transport in the mountains. There are about 10 horses, between 14.2hh and 15.2hh, generally strong, calm, sure-footed and very well suited to the terrain. Horses are groomed and tacked up for you - but you are welcome to help. All horses have been re-trained to respond to both English & Western aids but usually go best when ridden with a loose, relaxed contact with the mouth.

## TACK

Saddles are locally made and especially designed for the trail, similar to western in style with high front and back but usually without the pommel. They are made by hand at the local tack shop (there is usually a chance to visit this), and are very comfortable, with some padding built in (a version of seat saver is available but most find the saddles comfortable enough). All the horses are ridden in snaffle bits. Saddle-bags are provided for carrying what you need during the day, with vehicles transporting luggage and other equipment between accommodation.

## RIDING

On most days there will be around 5 to 8 hours in the saddle. As well as your English speaking guide (Marc) you will also have a local guide (Carlos) riding with you who is extremely knowledgeable about Colombian history, geography, flora & fauna. Most of the riding is on dirt tracks but there is quite a lot of tarmac work through villages etc as well. Your back-up driver (also a horseman), will be on hand to help look after the horses when you reach your destination each evening. A medical kit for both horses and riders will be carried along with a mobile 'phone for emergencies.

## WEIGHT LIMIT

90kg (14st 2lbs) - please check with us if you are close to this.

## RIDING EXPERIENCE

To participate in the ride you must be a reasonably competent rider who is used to riding in open country and over varied terrain. As a minimum to join the ride, you should be comfortable, well balanced and secure in the saddle at a walk, trot and canter and able to control a well-schooled horse at all paces. You will be asked to sign a declaration stating that you can 1) safely mount and dismount unaided; 2) control a well schooled horses that is alarmed or spooked; 3) walk, trot and canter; 4) walk unaided and lead a horse across rocky, step or slippery ground. Hours on some days will be quite long and you are bound to enjoy the ride much more if you are reasonably riding fit. If you are not used to riding for several hours a day, we recommend concentrated practice before you go to get used to the hours in the saddle. Riders should be 18 or over (though 14 to 17 year olds will be considered if accompanied by a riding parent and have the required capability).

## PACE & TERRAIN

The riding pace varies from day to day according to the terrain, altitude and also the ability of the group, but rides are suited to those who are confident cantering and overall you can expect a moderate pace. There will be some chances for long canters on dirt tracks, but also some steep climbs, riding on narrow paths through thick forest and on cobbled or tarmac streets into and out of towns & villages. In some places you may need to get off to lead your horse over steep, rough or rocky ground, or down slippery tracks. The routes go through a variety of landscapes, from the verdant coffee plantations and surrounding jungle, to colourful villages perched on high ridges. There are wonderful views of endless mountains clad with rich vegetation - don't expect big empty grasslands.

## ACCOMMODATION

Accommodation overall is quite simple, but it is varied in style and character with nights spent at comfortable guesthouses, farmhouses, glamping resorts and country hotels - all hand picked by your team. 6 and 8 night itineraries include 1 or 2 nights at the beautiful base, Rancho Saman, which is set in 12 acres of sub tropical farmland, close to the city of Cartago. The ranch is 150 years old, built in colonial style, surrounded by gardens and swimming pool. There are 5 guest rooms, some with en-suite bathrooms, some with shared bathrooms, all stylishly furnished. On other nights in most cases rooms have their own bathrooms, though occasionally bathrooms are shared. Most bathrooms have showers rather than bathtubs and the plumbing can be unusual. Single rooms are usually possible on request depending on the group mix.

## MEALS

Breakfast, lunch and dinner are included each day. An emphasis is made to try the regional cuisine though for some meals there will be a break from traditional to more “international” for a “vegetable hit”. Breakfasts are usually fresh fruit, yoghurt & granola - with perhaps eggs (“huevos al gusto con arepas y queso” - eggs how you like them with maize tortillas and cheese) - and of course coffee! Lunches are either picnics, usually sandwiches with fruit and snacks for pudding; or it could be a traditional meal wrapped in a banana leaf. **cont. over**

## MEALS cont.

At evening meals you will have a chance to taste typical Colombian dishes such as “Bandeja Paisa” (rice, beans, pork and plantain served with arepas, fried egg and powdered beef) and “Sancocho” (chicken stew with yuca, plantain, sweetcorn, potato and avocado). Frijoles (beans) and local chorizo are often on the menu. On less traditional evenings a stir fry, salad or vegetable pasta may be served. Vegetarians can be catered for - please tell us in advance of any dietary restrictions so that any special arrangements can be made. Bottled water and soft drinks are provided with lunch & dinner, and wine & beer are included with dinner - aguardiente, the local hooch, may be offered to the brave!

## WEATHER & ALTITUDE

Colombia is a tropical country and temperatures are pretty similar year round. These rides take place in mid-altitude areas where coffee and bananas flourish. Altitudes here are between about 1400m and 2000m and daytime temperatures may be in the mid to high 20's C, dropping to around 10 C at night, sometimes less at higher altitudes. April and November are usually Colombia's wettest months on average but rain is possible at anytime.

## WHAT TO BRING

We will send you a list when you book.
