DORDOGNE & GIRONDE RIDES 2025

RIDE INFORMATION

These rides explore the Gironde, Lot and Dordogne in south-west France, some of the most historically interesting areas of the whole country. Boasting some 1,200 chateaux, the region is steeped with Anglo French history dating back to the Huguenot era and has a landscape of beautiful oak forests, river valleys and rolling hills. Rides are organised with a bi-lingual French guide, Michel Amat, who has many years' experience and is extremely well versed on local history, culture, food, wine and all this lovely part of France has to offer. Riding days explore peaceful, unspoilt countryside and are interspersed with visits to hilltop 'bastide' towns, imposing castles and fairy-tale chateau; evenings are a chance to enjoy delicious local cuisine as well as the Cahors and Bordeaux wines that have made the area famous. Michel's preferred riding is western style, relaxed and fun. He also takes huge pleasure in sharing the area's wonderful food and drink, is a knowledgeable and genial host and makes each trip highly personal - a great way to explore this lovely part of France.

DATES

6 night trips are run from set dates between April and October, with other dates for private groups occasionally possible on request. Please see the set departure dates overleaf and call us to check availability.

HORSES

The horses used are owned by Michel and are locally bred French saddle horses of mixed blood. They are between about 14.2hh and 15.2hh and of a medium build. They are well schooled, good-natured and sensible but also forward going, responsive and enjoyable to ride. They are ridden western style and are used to neck reining, going best when ridden with a loose contact with the mouth.

TACK

Saddles are English endurance style with 'Maclellans' or Western saddles available on request - please let us know when you book if you prefer western tack. Saddle bags are provided where needed.

RIDING

A number of 6 night itineraries are offered, following different routes and including 4 or 5 days riding combined with sightseeing. The number of riding days and hours each day varies with the itinerary chosen but full riding days usually include 4 to 6 hours in the saddle and half days around 3 hours. Please see the itineraries at the end of this information sheet for more details. Riding is broken up with rest stops, sightseeing visits and a long break for lunch. Rides are run for a minimum of 2 and a maximum of 6 riders and are lead personally by Michel, who speaks fluent English and is an experienced guide with a real interest in local history and culture. Michel sees to the horses personally, generally tacking-up and un-tacking for you each day (you may help if you wish!) and luggage is transported between hotels by a back-up vehicle which meets riders at lunch stops some days.

WEIGHT LIMIT

The rider weight limit is 86kgs although occasionally, by prior arrangement, fit and experienced heavier riders may be taken. However please call us to discuss - prior arrangements **must** be made to ensure suitable horses are available.

PACE

Riding is at a relaxed slow-to-moderate pace overall, largely governed by the terrain. In places on all routes riding is on narrow winding tracks, perhaps through forests or descending into, or climbing out of, valleys where the pace must be slow and you may be asked to dismount and lead your horse. In other places routes cross open fields and follow wide forest tracks that offer good chances to canter. Routes are carefully planned and there are usually chances for short trots and canters on most days, if weather conditions allow. The Castles & Caves of Malbec and Vineyards of Bordeaux rides have the most riding (5 days), with the Bordeaux Ride offering a few more chances for longer canters, particularly on the beach day. Terrain on the Malbec Ride requires a generally slower pace. All routes take you from village to village and there will be some road work every day in the vicinity of local villages.

RIDING EXPERIENCE

To join these rides you should have a reasonable amount of riding experience. You do not need to be an expert rider, but should be comfortable, balanced and secure in the saddle at a walk, trot and canter and able to control a well-schooled horse outside in open country at all these paces. You should also be used to riding over different, sometimes rough, terrain. The rides are aimed at reasonably competent riders but as the horses are sensible and well-mannered and the rides are not fast, they are well suited to confident riders of an intermediate ability. As you will be spending several consecutive days in the saddle, you will enjoy your holiday much more if you are reasonably riding fit and we recommend regular riding practice in the months before you go.

ACCOMMODATION

Accommodation on the rides is in a variety of good quality hotels and typical 'chambres d'hotes'. On most itineraries, the hotels used are of a 3* (occasional 4*) standard, with grander 4* and 5* chateaux and chateaux hotels used on the Prestige Ride. All hotels are carefully chosen by Michel for their comfort, position and character. Most are small and personal, but the style varies from traditional village guesthouse hotels and a converted watermill to more imposing manor houses. Individual bedrooms also vary; they are generally quite simple but all are comfortable with their own private bathroom, with loo and shower or bath. Many of the hotels have excellent restaurants and several also have a swimming pool for a relaxing dip after the day's ride. Rates assume shared twin or double bedded rooms with single rooms available at a supplement.

MEALS

The food in this area of France is one of its highlights. Michel places great emphasis on introducing you to the area's wonderful food and wine and you will be extremely well fed with a chance to sample some of the many local specialities such as 'foie gras' and 'magret de canard', as well as the delicious local wines. Breakfast is usually simple in the French style and eaten at your hotel - coffee, tea or hot chocolate, with bread or croissants. Lunch is either a good, varied picnic, brought by the back-up vehicle to meet you out riding - perhaps fresh bread, salads, a selection of cheeses, pate, cold meat or quiche, followed by fruit and with wine and coffee included - or you may stop at a local restaurant, depending on the route. In the evening, a three course dinner is eaten as a group at your hotel, or at a carefully chosen local restaurant. Menus are varied and selected to include different local dishes. Half a bottle of wine per person is included with lunch and dinner and extra drinks and spirits are available and will be charged to your bar bill. On the Prestige Ride dinner is at gourmet restaurants, several of which are Michelin starred, and there is a chance to try some of the best wines of the region. Vegetarians can be well catered for, but if you have any special dietary requirements please let us know in advance so that arrangements can be made.

WEATHER

The weather in the Dordogne is mild with daytime temperatures in April, May, September and October usually between 15 and 25 degrees C and from June to August usually between 20 and 35 degrees C, July and August being the hottest months. In spring and early summer there are many wild flowers and fresh leaves on the vines are a wonderful bright new green. Temperatures in November, February and March average around 10 degrees C during the day. Rain is possible year round, but showers are most likely during spring and autumn months (October, November & December have the highest rainfall statistically).

WHAT TO BRING
